## Satzuma Radio Controlled Hummer

### Product Description

Our official model of the RC Hummer (H2) boasts a long-range radio frequency reaching of up to 100 feet, approximately 10 car from the bonnet to boot and that's not all. The hummer's body is made from a robust plastic which can withstand knocks and bumps when you take into over or through rough terrain. The rubber tread on the tyres add additional traction to the wheels, helping to climb steeper inclines. The RC hummer is powered by 2 AA batteries and includes self assemble obstacles with the packaging. This product is a must have for Dad's, Grandads, Sons, Daughters or anyone one that likes an RC gadget that breaks down barriers.

### Product Features

- Official licensed Hummer branded product
- 1:24 scale full function radio control car
- Easy to use controls - forward, backward, left, right
- Working lights (Forward and reverse)
- Independent suspension
- Alloy effect rims and tyres
- Rubber wing mirrors (flexible when contacting with other objects)
- Front wheel tracking
- Excellent model detailing
- Control range up to 10 meters
